Meet the 2018 Shop Hop Pattern Designer!!

Our patterns were designed by Patti R. Anderson, a professional quiltmaker, quilt teacher and pattern designer living in Buckhannon, WV. She specializes in quilt graphics using CorelDRAW, but she also teaches quilting classes and Electric Quilt software classes around the state and online. She formerly taught EQ classes online at QuiltUniversity.com and will soon join the faculty at the new "university" ElectricQuilt.com.

Patti has authored two software companion books for Elecgric Quilt Company on block drawing. Her most recent book, EQ with Me; Pieced Drawing, is still available online or at your local quilt shop. Visit her website at www.patchpieces.com.

A Little something about our Shop Hop Fabric

This year commemorates our 15th anniversary as the WV Mountain Quilt Quest Shop Hop. We have welcomed in many new shops along the way, and said goodbye to a few of our original shops for various reasons. As we pause and reflect upon these many years, we realize how very blessed we are indeed. So many friendships have developed; some visiting smiles only come once a year – but are warmly welcomed and cherished; others return frequently with friends and family – and all become part of our quilting family. Laughter fills the shops as the hoppers get reacquainted and another carload of hoppers pulls onto the parking lot – at the sound of “are you following us??”

We decided to capture some of these wonderful memories in our exclusive shop hop fabric this year. We have asked Hoffman Fabric design specialists to create a unique fabric that will showcase a reflection of the past years shop hop favorites of our Wonderful West Virginia!! We hope you will come and be a part of our 2018 Mountain Quilt Quest shop hop adventure!!
